*Qualified and dedicated Project Manager with experience building web apps and platforms and leading projects that have a meaningful impact to the company and clients. Seeking a role in IT project management at AE Business Solutions, where I can leverage my vast experience in complex enterprise-level projects.*

## WORK EXPERIENCE

---

### Stripe - IT Project Manager

May 2017 - current

Seattle, WA

- Supervised the redesign of Stripe Connect, a payment platform, that boosted revenue by \$1.2M
- Worked closely with the product management team to scope customer requested features and determine which features would provide the highest return on investment
- Aligned goals with executives on scheduling, budgeting, resource management, and style of progress
- Received the 2018 award for Top Project Leader in the organization by ensuring 100% on-time delivery through proactive identification and removal of development roadblocks

### RxAdvance - Project Manager

April 2015 - May 2017

Seattle, WA

- Simultaneously led two large scale projects with a collective budget of \$4M, both of which were closed on time and under budget by \$225K
- Worked closely with executive, engineering, marketing, product, and sales teams to define the scope of each project and the schedule of deliverables
- Using Scrum methodologies, ensured the software development team had the resources to meet deadlines and escalated roadblocks to management when necessary
- Implemented rigorous monitoring of new features to ensure they continued to meet KPIs after the projects were closed, and identified solutions to improve a sidebar feature performance by 20%

### Battelle - Software Engineer

Apr 2014 - Apr 2015

Seattle, WA

- Examined data to diagnose program issues, and determined solutions to modernize portfolio system, resulting in ROI of \$210K
- Communicated and planned with 5 project managers to develop a military hardware system
- Drafted technical documentation throughout development process, and presented progress reports to PMs and executives in meetings 1-2 times per week
- Utilized simulation to develop, design, upgrade, and maintain system features to hit 90% of KPIs

## EDUCATION

---

### University of Washington - B.S., Computer Science

2010 - 2014, GPA: 3.7

Seattle, WA
